Dorner Low Profile Conveyors

Dorner LPZ adjustable angle flat or cleated belt conveyor for elevating parts, scrap or containers.

Dorner 2200 Series Low Profile Belted Conveyor—1.5"–24" widths, 1.5'–24' lengths, loads to 120 lbs., 1.87 frame depth.

2200 Series SmartFlex Conveyors—Each conveyor is completely assembled and tested at Dorner. This ensures that set-up is fast and easy once your conveyor arrives.

3200 Series Conveyors for:

- Parts Handling
- Transfers
- Accumulation
- Precision Parts Movement
- Part Incline/Decline Routing (Z Frames)
- Positioning
- Automated and Manual Assembly
- High Speeds
- Long Runs
- Mainline Packaging

Pax Products Conveyors

The Pax Center Drive Conveyor was made for applications where a bottom drive, custom built conveyor is required. Key features of Pax Center Drive Conveyors include:

- Customizable
- Conveyor length is made to order (lengths of up to 10' are standard, but longer designs are available).
- Conveyor can be designed with motor located anywhere along the bottom of the conveyor (position is fixed).

Low Profile Under Die Scrap Removal Conveyors

Elliptical Gear Driven Oscillating Conveyor to convey parts and scrap out of the press area. Three models for 50-, 125- and 250-pound loads. Supports multiple conveying trays and extended length crossbars for wide bolsters.

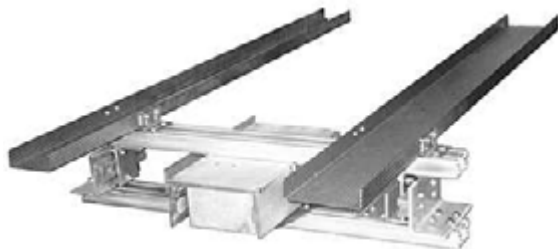

- No Air Consumptions
- Quick Snap-On Tray Design
- No Springs or dynamic seals

The Pax Drum Conveyor utilizes a motorized pulley to provide a customized conveyor solution for your application. Compact, Low Profile Design, Energy Efficient, Sealed, Motorized Pulley, Customized as Required:

- Conveyor Length, Width, Capacity and Speed Made to Order.
- Options Can Be Customized and Added as Required.

Magnetic Products, Inc.

Electric shaker conveying systems for slug removal applications.

Four models:

- M10 for 10lb tray weight
- M50 for 50lb
- M200 for 200lbs
- M1000 for 1K lbs

Larger models support multiple trays. Up to 20 fpm conveying speeds.

Beltless Conveying Solutions

Southworth Products

**Ergonomic Material Handling Equipment To Make Work Faster, Safer And Easier.
Lift Tables, Container Tilters, Turntables, Work Tables, Stackers,
Pallet Handling Equipment**

E-Z Reach Universal Tilter

Unique pan style design accommodates any type of container. Because the unit is essentially flush to the floor when in the lowered position, this tilter can be easily loaded with hand cart and hand pallet trucks.

ZLS Floor Height Lift

These lift tables lower to floor or near floor height so that they can be fed and offloaded by hand pallet trucks. An elastomeric front edge prevents toe injury.

New London Engineering
